

This course is intended to better prepare the student for college or their future career, academically and spiritually. On a weekly schedule, students apply for scholarships, take a portion of a practice ACT test, read and discuss the Biblical guide, *Welcome to College*. Students also have the opportunity to hear persons from various career clusters and to closely inspect a broad spectrum of career opportunities. Students also receive guidance in preparing a college resume, completing college applications, FAFSA application, and preparing scholarship applications.
